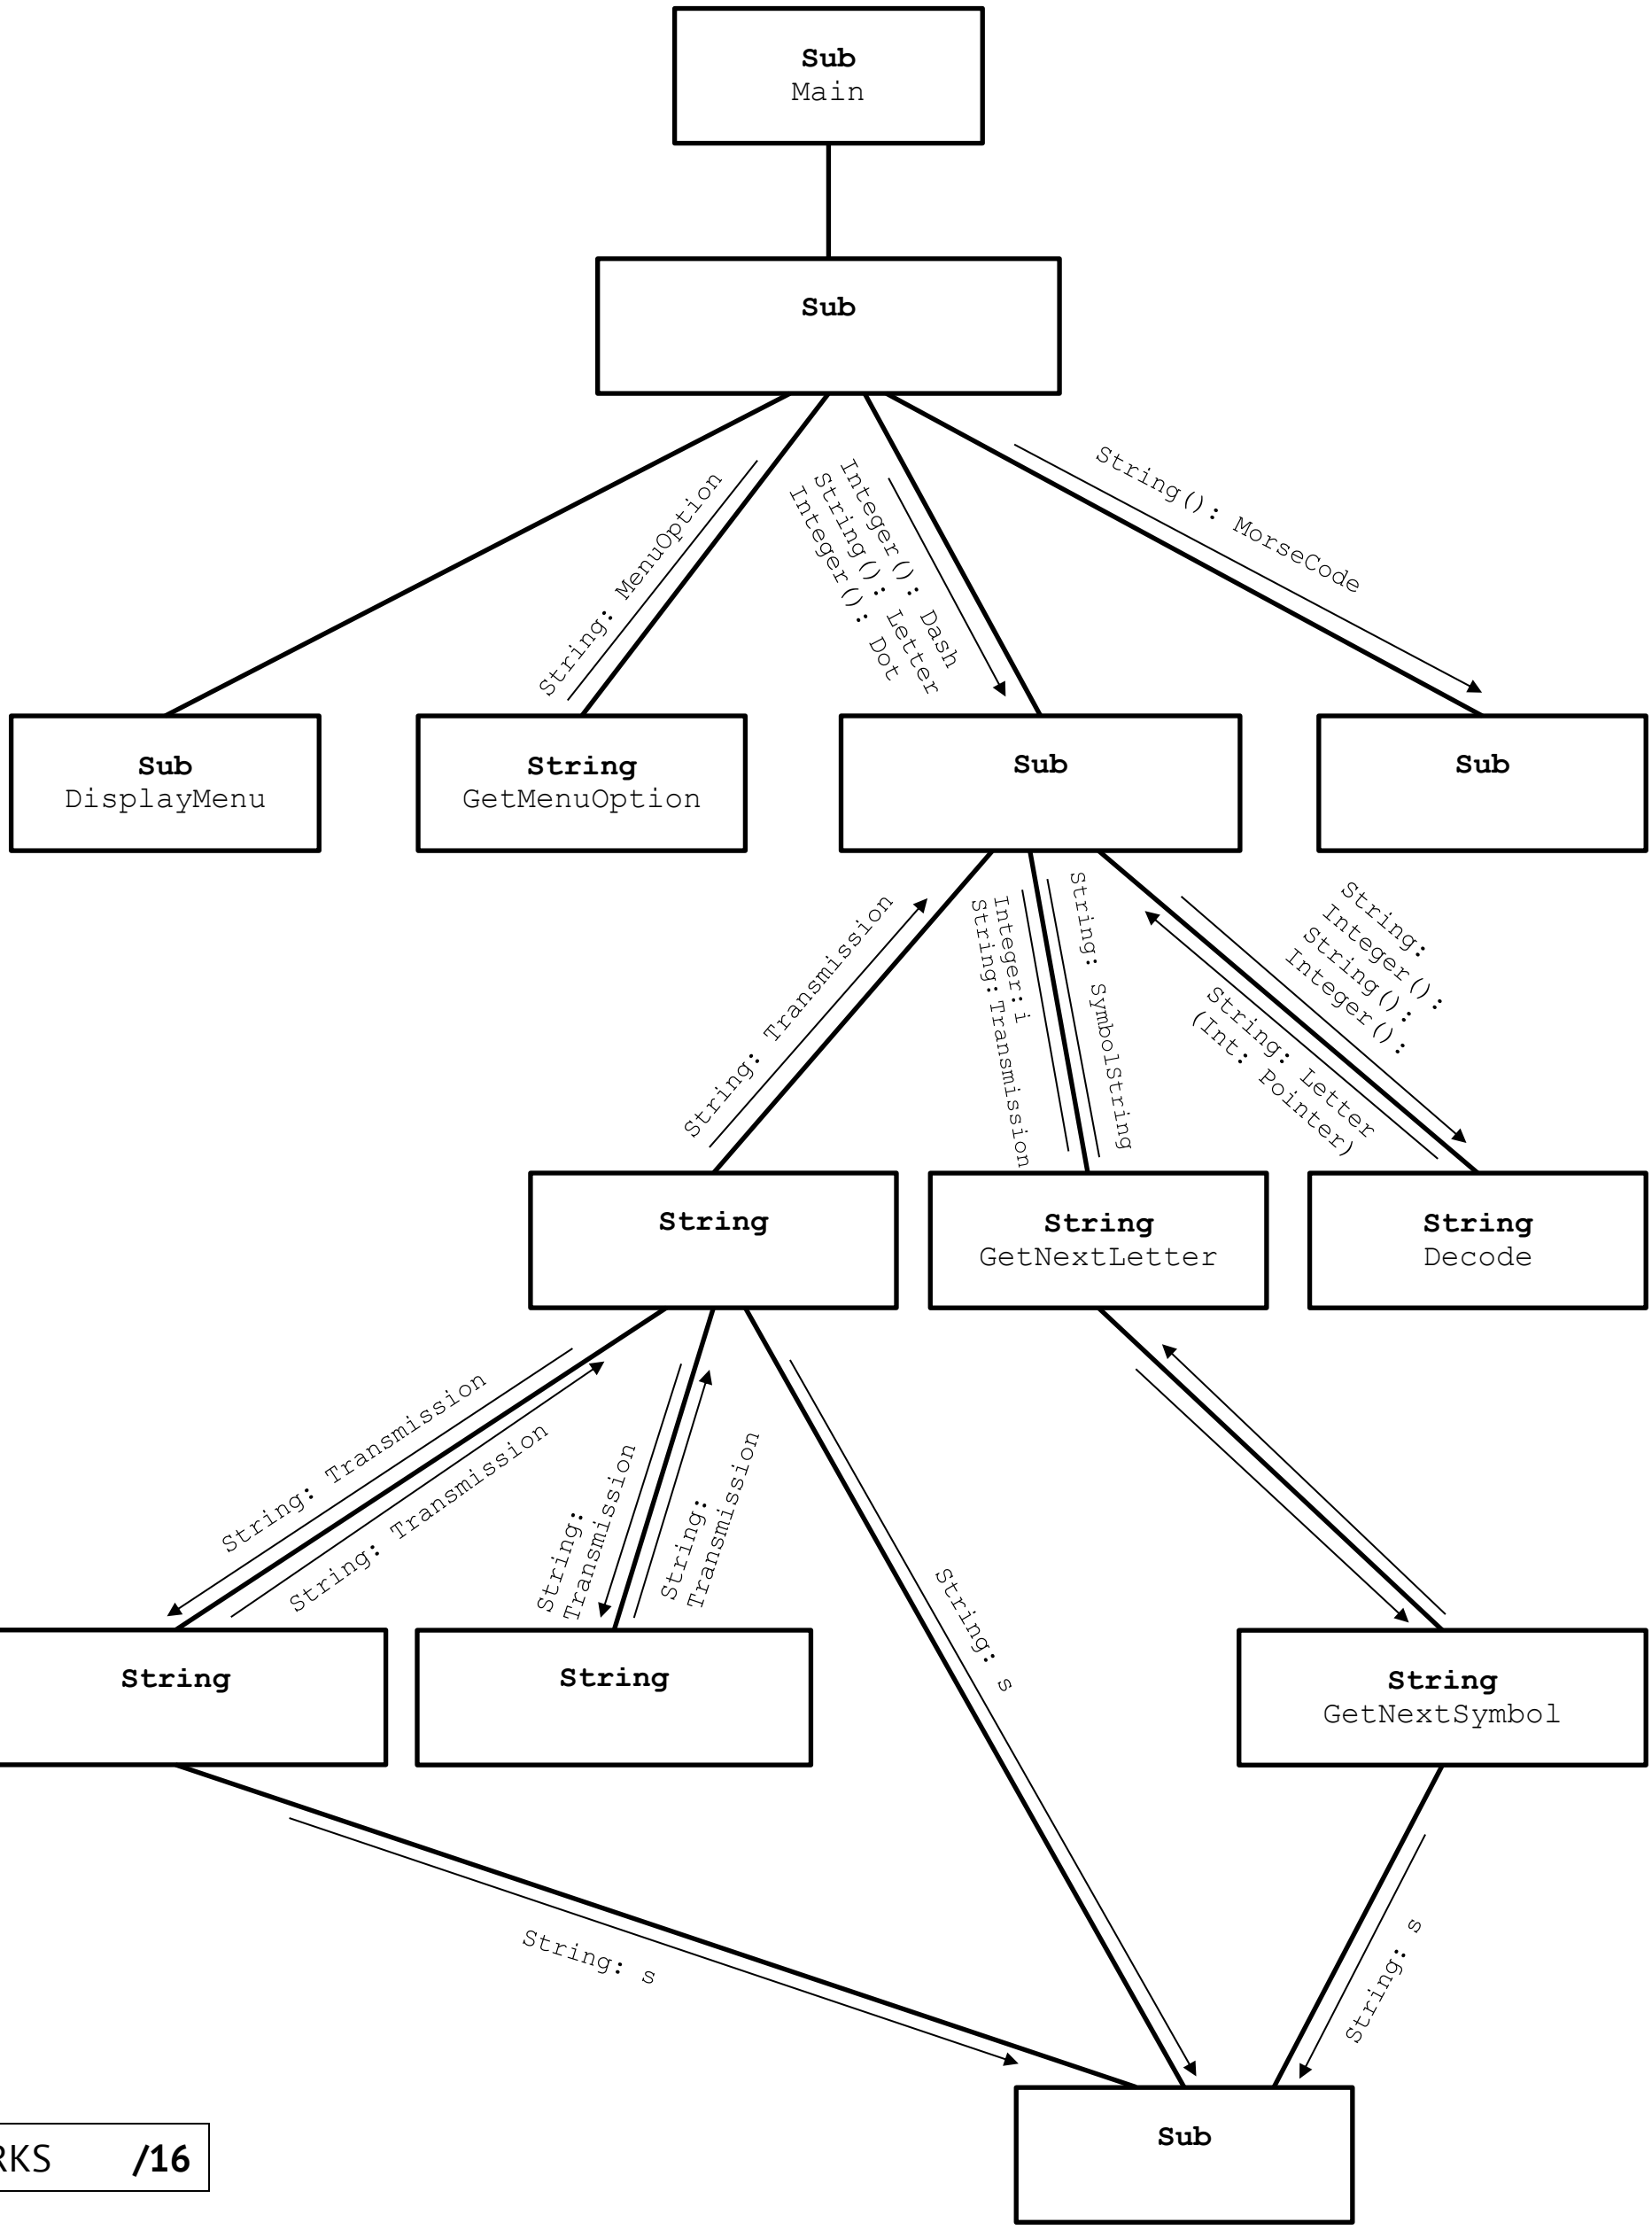
Structure Diagram (Activity)

MORSE CODE

The following structure diagram is incomplete, and you will need to make the following changes, as required, in the correct places:

- Adding a subroutine's name, e.g. **`ReceiveMorseCode`**
- Adding or completing one or more parameters, e.g. **`Integer(): Dash`**
- Adding a return value, e.g. **`String: Symbol`**
- Completing the arrow by drawing its head – parameters in this diagram are passed downwards; return values move upwards.



MARKS **/16**
