**Section A: The Julio-Claudian Emperors, 31 BC–AD 68**

Answer **either** question 1 **or** question 2 **and** then question 3.

Answer **either** question 1 **or** question 2.

**1\*** To what extent was there discontent with the emperors during this period?

You must use and analyse the ancient sources you have studied as well as your own knowledge to support your answer. **[30]**

**2\*** How important a role did imperial women play during the reigns of Claudius and Nero?

You must use and analyse the ancient sources you have studied as well as your own knowledge to support your answer. **[30]**

**3** Read the interpretation below.

[Augustus] resigned his consulship in the summer of that year (23 BC), a post to which he had been elected for nine years running. And he was not to hold it again, except on rare, honorific occasions. The senate, in turn, gave him the right to retain his *imperium* (his military authority). ... More significantly still, the compliant senators increased the force of Augustus' *imperium* abroad by making it superior to that of 5 governors in any subject territory, even those outside his own extensive provincial commands ... – an extraordinary authority conventionally known as *maius imperium* ("greater power"). ... The Roman senate [also] accorded Augustus the right to wield the responsibilities of a tribune for life. ...

What does all this mean? Common interpretation has it that the settlement of 23 BC 10 represents a retreat on Augustus' part, that resignation of the consulship diminished powers that he previously wielded ... . All of that is speculation, unfounded and implausible. ... Augustus may have technically relinquished the specific privileges that attached to the consulship. But this entailed no lapse in authority.

Erich S. Gruen, 'Augustus and the Making of the Principate'

How convincing do you find Gruen's interpretation that Augustus suffered "no lapse in authority"?

You must use your knowledge of the historical period and the ancient sources you have studied to analyse and evaluate Gruen's interpretation. **[20]**

**Section B: Ruling Roman Britain, AD 43–c.128**

Answer question 4 **and** then **either** question 5 **or** question 6.

**4** Read the sources below.

Obverse: VIR(ICA) split by vine-leaf  
Reverse: Horseman; Below: C(OMMI) F(ILIVS)

Gold Stater of Verica  
Coin date: c. AD 20–40 (LACTOR 4)

Obverse: Ear of corn. CA MV (LODVNVM),  
Reverse: Horse. Below: CUNO(BELINVS).

Gold Stater of Cunobelin(us)  
Coin date: AD 20–40 (LACTOR 4)

Aulus Plautius, a senator of great reputation, led an expedition to Britain. This was because a certain Berikos [*Verica*], who had been driven out of the island as a result of civil war, persuaded Claudius to send a force there.

Cassius Dio, *Roman History* 60.19.1

He undertook only one expedition, and that a modest one. The Senate had decreed him triumphal ornaments, but he regarded this as beneath his dignity as emperor. He sought the honour of a real triumph, and chose Britain as the best field in which to seek this, for no one had attempted an invasion since the time of Julius Caesar and the island at this time was in turmoil because certain refugees had not been returned to the island. 5

Suetonius, *Claudius*, 17.1–2

How useful are these sources for our understanding why Claudius invaded Britain in AD 43? **[12]**

Answer **either** question 5 **or** question 6.

**5\*** ‘The Britons benefitted from the Roman occupation of Britain throughout the period.’ How far do you agree with this view?

You must use and analyse the ancient sources you have studied as well as your own knowledge to support your own knowledge. **[36]**

**6\*** ‘Boudicca’s rebellion was a direct result of widespread mistreatment of the Britons by the Romans since the invasion of AD 43.’ How far do you agree with this view?

You must use and analyse the ancient sources you have studied as well as your own knowledge to support your own knowledge. **[36]**

## MARKING INSTRUCTIONS

**PREPARATION FOR MARKING****SCORIS**

1. Make sure that you have accessed and completed the relevant training packages for on–screen marking: *scoris assessor Online Training*; *OCR Essential Guide to Marking*.
2. Make sure that you have read and understood the mark scheme and the question paper for this unit. These are posted on the RM Cambridge Assessment Support Portal <http://www.rm.com/support/ca>
3. Log–in to scoris and mark the **required number** of practice responses (“scripts”) and the **required number** of standardisation responses.

YOU MUST MARK 10 PRACTICE AND 10 STANDARDISATION RESPONSES BEFORE YOU CAN BE APPROVED TO MARK LIVE SCRIPTS.

**TRADITIONAL**

Before the Standardisation meeting you must mark at least 10 scripts from several centres. For this preliminary marking you should use **pencil** and follow the **mark scheme**. Bring these **marked scripts** to the meeting.

**MARKING**

1. Mark strictly to the mark scheme.
2. Marks awarded must relate directly to the marking criteria.
3. The schedule of dates is very important. It is essential that you meet the scoris 50% and 100% (traditional 50% Batch 1 and 100% Batch 2) deadlines. If you experience problems, you must contact your Team Leader (Supervisor) without delay.
4. If you are in any doubt about applying the mark scheme, consult your Team Leader by telephone, email or via the scoris messaging system.

5. Work crossed out:
  - a. where a candidate crosses out an answer and provides an alternative response, the crossed out response is not marked and gains no marks
  - b. if a candidate crosses out an answer to a whole question and makes no second attempt, and if the inclusion of the answer does not cause a rubric infringement, the assessor should attempt to mark the crossed out answer and award marks appropriately.
6. Always check the pages (and additional objects if present) at the end of the response in case any answers have been continued there. If the candidate has continued an answer there then add a tick to confirm that the work has been seen.
7. There is a NR (No Response) option. Award NR (No Response)
  - if there is nothing written at all in the answer space
  - OR if there is a comment which does not in any way relate to the question (e.g. 'can't do', 'don't know')
  - OR if there is a mark (e.g. a dash, a question mark) which isn't an attempt at the question.Note: Award 0 marks – for an attempt that earns no credit (including copying out the question).
8. The scoris **comments box** is used by your Team Leader to explain the marking of the practice responses. Please refer to these comments when checking your practice responses. **Do not use the comments box for any other reason.** If you have any questions or comments for your Team Leader, use the phone, the scoris messaging system, or e-mail.
9. Assistant Examiners will send a brief report on the performance of candidates to their Team Leader (Supervisor) via email by the end of the marking period. The report should contain notes on particular strengths displayed as well as common errors or weaknesses. Constructive criticism of the question paper/mark scheme is also appreciated.
10. For answers marked by levels of response:
  - a. **To determine the level** – start at the highest level and work down until you reach the level that matches the answer
  - b. **To determine the mark within the level**, consider the following:

Descriptor	Award mark
On the borderline of this level and the one below	At bottom of level
Just enough achievement on balance for this level	Above bottom and either below middle or at middle of level (depending on number of marks available)
Meets the criteria but with some slight inconsistency	Above middle and either below top of level or at middle of level (depending on number of marks available)
Consistently meets the criteria for this level	At top of level

11. Please note: the Assessment Objectives targeted by each question and the maximum marks available for each Assessment Objective are given at the top of each levels mark scheme for each question. Unless otherwise stated the weightings of the assessment objectives remain consistent throughout the levels. For example if the maximum marks are 6 AO1, 3 AO2, then the AO1/AO2 ratio will be 2/1 throughout the levels.

### 13. Subject-specific Marking Instructions

#### INTRODUCTION

Your first task as an Examiner is to become thoroughly familiar with the material on which the examination depends. This material includes:

- the specification, especially the assessment objectives
- the question paper and its rubrics
- the mark scheme.

You should ensure that you have copies of these materials.

You should ensure also that you are familiar with the administrative procedures related to the marking process. These are set out in the OCR booklet **Instructions for Examiners**. If you are examining for the first time, please read carefully **Appendix 5 Introduction to Script Marking: Notes for New Examiners**.

Please ask for help or guidance whenever you need it. Your first point of contact is your Team Leader.

#### USING THE MARK SCHEME

Please study this Mark Scheme carefully. The Mark Scheme is an integral part of the process that begins with the setting of the question paper and ends with the awarding of grades. Question papers and Mark Schemes are developed in association with each other so that issues of differentiation and positive achievement can be addressed from the very start.

This Mark Scheme is a working document; it is not exhaustive; it does not provide 'correct' answers. The Mark Scheme can only provide 'best guesses' about how the question will work out, and it is subject to revision after we have looked at a wide range of scripts.

The Examiners' Standardisation Meeting will ensure that the Mark Scheme covers the range of candidates' responses to the questions, and that all Examiners understand and apply the Mark Scheme in the same way. The Mark Scheme will be discussed and amended at the meeting, and administrative procedures will be confirmed. Co-ordination scripts will be issued at the meeting to exemplify aspects of candidates' responses and achievements; the co-ordination scripts then become part of this Mark Scheme.

Before the Standardisation Meeting, you should read and mark in pencil a number of scripts, in order to gain an impression of the range of responses and achievement that may be expected.

Please read carefully all the scripts in your allocation and make every effort to look positively for achievement throughout the ability range. Always be prepared to use the full range of marks.

**INFORMATION AND INSTRUCTIONS FOR EXAMINERS**

- 1 The co-ordination scripts provide you with *examples* of the standard of each band. The marks awarded for these scripts will have been agreed by the Team Leaders and will be discussed fully at the Examiners' Co-ordination Meeting.
- 2 The specific task-related indicative content for each question will help you to understand how the band descriptors may be applied. However, this indicative content does not constitute the mark scheme: it is material that candidates might use, grouped according to each assessment objective tested by the question. It is hoped that candidates will respond to questions in a variety of ways. Rigid demands for 'what must be a good answer' would lead to a distorted assessment.
- 3 Candidates' answers must be relevant to the question. Beware of prepared answers that do not show the candidate's thought and which have not been adapted to the thrust of the question. Beware also of answers where candidates attempt to reproduce interpretations and concepts that they have been taught but have only partially understood.
- 4 Please note: the Assessment Objectives targeted by each question and the maximum marks available for each Assessment Objective are given at the top of each levels mark scheme for each question. The weightings of the assessment objectives remain consistent throughout the levels. For example if the maximum marks are 5 AO1, 10 AO2 and 15 AO3, then the AO1/AO2/AO3 ratio will be 1/2/3 throughout the levels. When marking, you must therefore give greater priority to the more heavily weighted Assessment Objective when determining in which level and where within a level to place an answer.
