General Certificate of Education June 2003 Advanced Level Examination

PHA5/W

PHYSICS (SPECIFICATION A) Unit 5 Nuclear Instability: Astrophysics Option

Friday 20 June 2003 Afternoon Session

In addition to this paper you will require:

- a calculator;
- a pencil and a ruler.

Time allowed: 1 hour 15 minutes

Instructions

- Use blue or black ink or ball-point pen.
- Fill in the boxes at the top of this page.
- Answer all questions in the spaces provided. All working must be shown.
- Do all rough work in this book. Cross through any work you do not want marked.

Information

- The maximum mark for this paper is 40.
- Mark allocations are shown in brackets.
- The paper carries 10% of the total marks for Physics Advanced.
- A *Data Sheet* is provided on pages 3 and 4. You may wish to detach this perforated sheet at the start of the examination.
- You are expected to use a calculator where appropriate.
- In questions requiring description and explanation you will be assessed on your ability to use an appropriate form and style of writing, to organise relevant information clearly and coherently, and to use specialist vocabulary where appropriate. The degree of legibility of your handwriting and the level of accuracy of your spelling, punctuation and grammar will also be taken into account.

Data Sheet

- A perforated *Data Sheet* is provided as pages 3 and 4 of this question paper.
- This sheet may be useful for answering some of the questions in the examination.
- You may wish to detach this sheet before you begin work.

SECTION A: NUCLEAR INSTABILITY

Answer all parts of this question.

1 Figure 1 shows a grid of neutron number against proton number. A nucleus ${}_{Z}^{A}X$ is marked.

neutron number

- (a) Draw arrows on **Figure 1**, each starting on ${}_{z}^{4}\mathbf{X}$ and ending on a daughter nucleus after the following transitions:
 - (i) β^- emission (label this arrow A) neutron emission (label this arrow B) electron capture (label this arrow C).

(ii)	Give the equation	for electron	capture by	the nucleus	${}_{Z}^{A}\mathbf{X}.$
