Godalming Fieldwork

Enquiry questions to investigate

- To what extent is Godalming a 'Placeless' town?
- How does the microclimate of Godalming change?
- How globally connected is Godalming town centre?
- How does the land use and environmental quality vary between towns X and Y?

Your time in Godalming: _____

Time for microclimate session: _____

Meeting point: Outside Fat Face

College mobile numbers:

Fieldwork tasks to complete

- 1) Clone town survey
- 2) Microclimate recordings
- 3) International business survey
- 4) International product survey
- 5) Mapping evidence that represent Godalming's links with the wider world
- 6) Photos evidencing globalisation (make sure that you map the location of your photos)
- 7) Environmental quality surveys

You must register with a member of staff at the start and end of the fieldwork sessions.

You must also make sure that you attend your microclimate session on time so that the equipment can be shared.

CLONE TOWN BRITAIN SURVEY

Home Town or Clone Town?

The Clone Town Britain Survey is designed by **nef** (the new economics foundation) to determine whether your town is a Clone Town indistinguishable from dozens of others around the country; or a genuine Home Town that is distinctive and recognisable as a unique place. The Clone Town Britain Survey is simple and can be used in any town in the UK. It should take no more than 30 minutes and can be completed while strolling along your local high street.

How to do the Survey

I) The route

Start at the place you consider to be the high street of your town – a street where most of the shops are concentrated. To do the Survey you simply need to walk along the high street and record the first 50 shops you pass (you can start at any point on the high street). Services such as post-offices, banks, benefit offices, job centres, doctors' surgeries and public buildings should not be counted.

II) Filling in the Survey

As you walk along the high street, fill in the form on the reverse side of this page. For each shop, you should note down:

- The type of shop
- Whether the shop is independently owned, or a part of regional, national or international chain.

The ownership of the shops on your high street is crucial to understanding its homeliness or 'cloneliness'. If you're not sure, go in and ask one of the staff.

III) The scoring

Once you have filled in the survey for 50 shops on your high street, you are ready to score your town and see whether it is, or is on its way to becoming, a clone town. This is determined by the number of different types of shops (i.e. diversity), and the number of chain stores versus independently owned shops (i.e. identity). Follow the simple steps below to calculate your town's score:

1. For each **type of shop** counted on your high street, give **5 points**.
2. For each **independently owned shop** counted on your high street, give **50 points**.
3. For each **chain store** counted on your high-street, give **5 points**.
4. Add up the scores from steps 1–3 and divide the total sum by the number of shops counted (i.e. 50).

Example: 'Blandton'

A survey of 50 shops carried out on the high street of 'Blandton' found 18 different types of shops. It also revealed that, out of the 50 shops counted, 10 were independently owned and 40 were chains. 'Blandton' therefore received the following score:

$$(18 \times 5) + (10 \times 50) + (40 \times 5) = 790$$

$$790 / 50 = 15.8$$

With a score of 15.8 we see that 'Blandton' is indeed a Clone Town!

Please return completed surveys to:

300m						

International Business Survey

Start at one end the High Street and record the first 50 shops that you pass from wherever you start. As you walk along the High Street fill in the form in the booklet and note whether the company is owned by an International brand or not. You may need to google this or go in and ask. At the end you will have a list of different businesses and whether they tend to be global brands or not. You could then calculate the ratio or proportion of local/national versus international businesses.

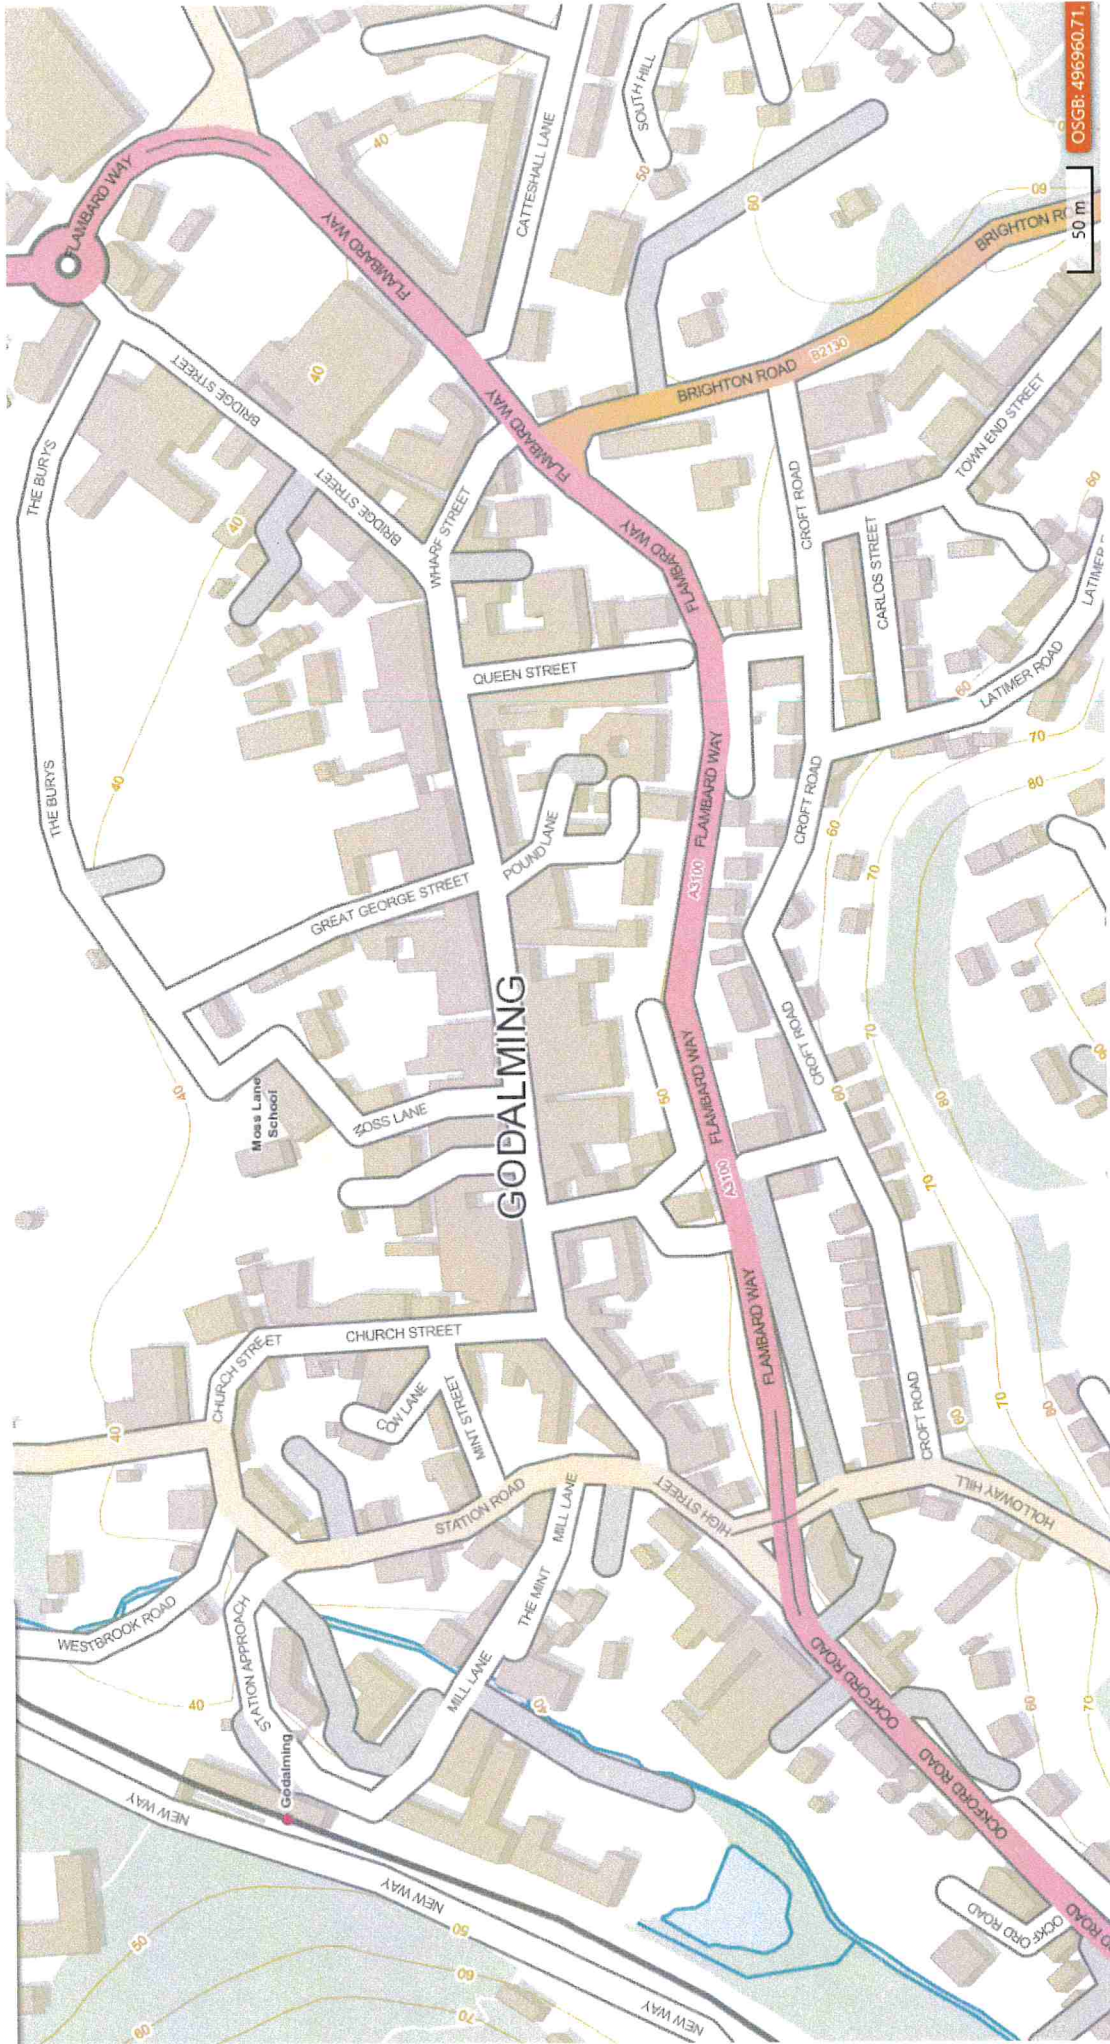

Product Survey

Choose 5 different shops in Godalming (make sure that they are not all the same e.g. food shops). Try to do this systematically e.g. every 5th shop. Randomly select 5 items from each shop and record where the product was made or grown. This can then be plotted on a map. Make sure that you record the name of the shop

Name of shop	Products found and where grown/made

	International business tally	National or local business tally
Food retailer (butcher, baker, supermarket, etc.)		
Newsagents/tobacconists		
Stationery/books

International Business Survey

Environmental Quality - Area _____

General description of the area:

	0	1	2	3	4	5	
--	---	---	---	---	---	---	--

Buildings

High density (many properties within a small space)								Low density (few properties, lots of space)
Badly designed / ugly								Well designed / pleasing to the eye
No maintenance / no evidence of improvements								Evidence of maintenance / improvements
Extensive vandalism / graffiti								No vandalism / graffiti evident
<u>Total Score - Buildings</u>								

Traffic

Parking is difficult - Many vehicles parked on road								Parking in garages or driveways.
Air smells heavily of traffic fumes								No smell of car fumes
High noise volume from traffic								No traffic noise
Dangerous for people								Safe for people
<u>Total Score - Traffic</u>								

Open Space and Gardens

No garden / open space – door opens to street								Large gardens or open space outside house
Garden / open space in poor condition								Garden / open space in good condition
No greenery visible								Trees / shrubs / greenery visible
No public parks								Public parks easily accessible
<u>Total Open Space Score</u>								

General Quality

Much litter								No litter
Paths poorly maintained / broken paving etc.								Paths well maintained
Area is undesirable								Area is desirable
Unwelcoming feel								welcoming feel
<u>Total Score - General Quality</u>								

<u>Total Environmental Quality Score</u>
