Chem Factsheet (

- 73 Reaction Mechanisms revision Summary
- 74 Ammonia and the Haber Process
- 75 The Chemistry of Chromium
- 76 Polymers
- 77 The importance of Hydrogen bonding
- 78 Recognising, Constructing and Interpreting Redox Reactions
- 79 Catalysts
- 80 The Extraction of Aluminium
- 81 UV and Visible Spectroscopy
- 82 Why students lose marks: AS Energetics
- 83 The Chemistry of Copper
- 84 Free Radical substitution and Polymerisation
- 85 Salt Hydrolysis
- 86 Deprotonation (Acid-Base Reactions)
- 87 σ and π -bonds and the structure of Benzene
