

# Chem Factsheet

163. Ethanol Production
164. Green Chemistry
165. Extraction of Metals
166. The Chemistry and Benefits of Catalysts
167. The Syntheses of Aspirin & Paracetamol
168. Combinatorial Chemistry
169. EDTA
170. How to Answer AS Level Questions on Equilibria
171. Zwitterions
172. Bonding and Electronegativity: Van Arkel Triangles
173. The Chemistry of Breathalysers
174. How to Answer Questions on Alkane Combustion and Environmental Pollution
175. Essential Laboratory Procedures: PSA's - AS part 1
176. Functional Group Levels
177. How to Answer Questions on Alkaline Earth Metals (Group 2) and Their Compounds
